Stages of Wound Healing: 4 Stages and What to Expect

The V.A.C.® Therapy System is a medical device that promotes wound healing by applying negative pressure (a vacuum) to your wound. Your wound is covered by a dressing that protects the injured area. The V.A.C.® Therapy System works by bringing together your wound edges, removing blood and fluid that may contain infectious substances, and promoting new tissue growth, also called granulation.

Healing Journey - MyWoundHealing

In November 1993 Julie Friedeberger developed breast cancer and had a mastectomy. This powerful, inspiring book is the story of the inner journey that transformed her life, a journey that led her from terror, anger and denial, to acknowledgement and acceptance. A Visible Wound is much more than a personal story.
