...

Tie, majoring in environmental science, says she is pessimistic about her academic future in the US, given the growing scrutiny over Chinese students and scholars in science and technology. "I used to think I'd pursue my PhD in the US and perhaps settle down here, but now I see myself returning to China after obtaining a master's degree," Tie says.

Being a Chinese student in the US: 'Neither the US nor ...

Water heated in a microwave just isn't the same as when it's heated in a kettle, scientists in a new study said, confirming what many tea-drinking Brits have known instinctively for years.
