Cummins Isx Stop Engine Light - mail.trempealeau.net

I have a 2010 Prostar with a Cummins ISX engine. I've been having an issue where if I'm driving with a load, as I increase my speed and get up between 50-60 mph, my yellow engine warning light comes on. As I continue to drive and increase the speed between 65-70, the red light comes on. I have to pull over and shut the truck off.

Cummins ISX CM871 Technical Discussion | The Truckers Forum

If the stop engine light stays on for a length of time the ECM will go into protect mode and de-rate engine power, to allow the driver a warning time to get the coach off the road before engine shut down. That being said, if you have never got to the de-rate stage, the stop engine warning could very well be false.
