Design for how people learn - LinkedIn SlideShare

Traditional instructional design approaches focus heavily on content—getting it complete and accurate. Then making presentations as clear as possible. Then making assessments precise. Concerns about the learning experience, making it meaningful, memorable, and motivational, may not even enter into the discussion.

Design for How People Learn

According to the cognitive research covered in How People Learn, environments that best promote learning have four interdependent aspects—they focus on learners, well-organized knowledge, ongoing assessment for understanding, and community support and challenge. 1.

How People Learn | Center for Teaching | Vanderbilt University

Designing for How We Learn. In this series of articles, June Hanley shares her thoughts on how what we know about how people learn has influenced the design of learning environments. June bases her insights on both research and her firsthand experience as a teacher. She looks specifically at the design of lecture halls, classrooms and maker spaces/instructional laboratories.
