Grade 4 Division Worksheets: Dividing by whole 10s or 100s ...

The reason why that happens is because those two zeros here represent hundreds, 35 hundreds. These two zeros represent hundreds, so if you divide 100 by hundreds, they're all gonna cancel out. So you had two zeros before, but you're dividing by something with the two zeros, so you don't have any zeros after the five here.
