The Dodo serves up emotionally and visually compelling, highly sharable animal-related stories and videos to help make caring about animals a viral cause.

The Dodo - For Animal People

The dodo was variously declared a small ostrich, a rail, an albatross, or a vulture, by early scientists. In 1842, Danish zoologist Johannes Theodor Reinhardt proposed that dodos were ground pigeons, based on studies of a dodo skull he had discovered in the collection of the Natural History Museum of Denmark. This view was met with ridicule, but was later supported by English naturalists Hugh ...
