Producing Enterprise Resource Planning (ERP) software is complex and also has many significant implications for staff work practice. Implementing the software is a difficult task too and one that 'in-house' IT specialists cannot handle. Hence to implement ERP software, organizations hire third party consulting companies or an ERP vendor.

Enterprise Resource Planning (ERP) - Tutorialspoint

Business Engineering is the method of development of business processes according to changing requirements. Business Management : ERP merges very well with common business management issues like Business Process Reengineering, total quality management, mass customisation, service orientation, and virtual corporation etc.
