Federal Revenue Sharing With The

Revenue sharing, a government unit's apportioning of part of its tax income to other units of government. For example, provinces or states may share revenue with local governments, or national governments may share revenue with provinces or states. Laws determine the formulas by which revenue is shared; the units that receive the money are free from most controls by the granting unit, and the receiving units may or may not be required to match the amounts received.

Revenue sharing | government program | Britannica

Revenue sharing is a type of fiscal federalism whereby the federal government allocates revenue to state and local governments with little or no strings attached. Unlike categorical grants that are program specific, revenue sharing provides flexibility to subnational political jurisdictions in using federal funds tailored to their special needs. There are two kinds of revenue sharing.

Revenue Sharing - Federalism in America

The United States government implemented revenue sharing between 1972 and 1986, in the form of congressional appropriation of federal tax revenue to states, cities, counties, and townships. Revenue sharing was extremely popular with state officials but lost federal support during the Reagan administration.
