SOCIOLOGY is the study of social life, social change, and the social causes and consequences of human behavior.

Sociologists investigate the structure of groups, organizations, and societies and how people interact within these contexts. Since all human behavior is social, the subject matter of sociology ranges from the intimate family to the

Micro-sociology, or the study of small group behavior, focuses on the nature of everyday human interaction on a small scale. At the micro level, social status and social roles are the most important components of social structure, and micro-sociology is based on the ongoing interactions between these social roles.
