This book is primarily designed for engineering students studying the subject of Solar Energy. Because of the inclusion of a separate chapter on Other Renewable Energy Sources, the book is also well-suited for teaching the subject of Non-Conventional Energy Sources or Renewable Energy Sources. Solar thermal devices and systems are covered in detail. This makes the use of the book ideal for ...

Protein-energy malnutrition occurs as a result of a relative or absolute deficiency of energy and protein. It may be primary, due to inadequate food intake, or secondary, as a result of other illness. For most developing nations, primary protein-energy malnutrition remains among the most significant health problems.
