ACF Posts Recruitment 2018 — OUCAGS - University of Oxford

Integrative geriatrics is a new field of medicine that advocates for a whole-person, patient-centered, primarily non-pharmacological approach to medical care of the elderly. Most current geriatric practices overprescribe medications and procedures and underutilize non-pharmacological, low-cost, high-touch methods.

Emergencies in Trauma - Oxford Medicine

Geriatric medicine: an evidence based approach is an online clinical reference for health care professionals who manage older patients, and summarizes up-to-date research literature in a style that can be directly applied by busy healthcare professionals and provide a useful resource for reference. Because people are living longer and the population over the age of 60 is burgeoning, there are ...

Geriatric Medicine: an Evidence-based Approach - Oxford ...

Looking after children with life-limiting conditions can be very difficult for both parents and health-care professionals. This second edition of Paediatric Palliative Medicine is full of easily accessible, detailed information on medical conditions and symptoms, and includes specific management plans in order to guide the practising clinician through treatment of children requiring palliative ...

Paediatric Palliative Medicine (Oxford Specialist ...

The growing geriatric population has created an increasing need for palliative medicine services across the range of medical and surgical specialties, but palliative medicine lacks the resources to carry such a workload itself. This online resource addresses this need by encouraging individual specialties to address the management of the elderly with the same vigor as they address other key ...
