Neolithic Revolution and River Valley Civilization Documents

The Neolithic Revolution, or (First) Agricultural Revolution, was the wide-scale transition of many human cultures during the Neolithic period from a lifestyle of hunting and gathering to one of agriculture and settlement, making an increasingly larger population possible. These settled communities permitted humans to observe and experiment with plants to learn how they grew and developed.

the invention of agriculture.

The Neolithic Revolution - Explorable.com

The term Neolithic Revolution was coined in 1923 by V. Gordon Childe to describe the first in a series of agricultural revolutions in Middle Eastern history. The period is described as a “revolution” to denote its importance, and the great significance and degree of change affecting the communities in which new agricultural practices were gradually adopted and refined.

Neolithic Revolution | Cultural Anthropology

The Neolithic Revolution involved far more than the adoption of a limited set of food-producing techniques. During the next millennia it would transform the small and mobile groups of hunter-gatherers that had hitherto dominated human pre-history into sedentary (non-nomadic) societies based in built-up villages and towns.
