supported by Solutions and investigations 7 November 2017 These solutions augment the printed solutions that were sent to schools.

For convenience, the solutions sent to schools are confined to two sides of A4 paper and therefore in many cases are rather short. The solutions given here have been extended.

A12 A rectangular sheet of paper ABCD, measuring 18cm by 12 cm, is folded so that the edge BC

exactly coincides with the edge BA. The fold line, shown in the diagram as a dotted line, crosses the diagonal at E. AB = 12cm, BC = 18cm. What is the area of the triangle FEC? Answer: cm^2
