Web Quest Exploration Guide Answers Energy

energy in the u.s. Web-quest exploration guide student. Energy demand is growing in the United States and around the world. At the same time, there is increasing public and political concern about the future of energy resources and the impact of energy generation and consumption on the environment. With energy demand increasing, it is important for us to know where our energy comes from, how much we consume, and how we can contribute to energy conservation and a clean energy future.
